Codes

Next to each product you will find its code number.

By using this number in any of your orders, we will be able to provide even better service, because it will help us to:

- Avoid most of the errors, because every reference has a single possible code.

- improve the processing and delivery of materials.

The identification will be much faster.

Each product code is composed of eight digits.

Observations

Consumption, dosages and returns that are specified are approximate.

Indications on the use of our products

Our indications, verbal or in writing, will be carried out according to our best knowledge, but must be understood as a non-binding recommendation. They do not absolve the customer's own review of the products. However, any responsibility of TEXSA SYNTHETICS, Inc. will be limited to the value of the goods delivered and used by the customer.
